About Multisoft

Train yourself with the best and develop valuable in-demand skills with Multisoft Systems. A leading certification training provider, Multisoft collaborates with top technologies to bring world-class one-on-one and certification trainings. With the goal to empower professionals and business across the globe, we offer more than 1500 training courses, which are delivered by Multisoft's global subject matter experts. We offer tailored corporate training; project Based Training, comprehensive learning solution with lifetime e-learning access, after training support and globally recognized training certificates.

About Course

ADOIT Training by Multisoft Systems is designed to help professionals understand and effectively use the ADOIT Enterprise Architecture Management (EAM) platform to align IT systems with business strategies. ADOIT is a powerful tool that enables organizations to visualize, analyze, and optimize their enterprise architecture, ensuring improved decision-making, transparency, and operational efficiency.

Module 1: Introduction to Enterprise Architecture & ADOIT

- ✓ Fundamentals of Enterprise Architecture (EA)
- ✓ Overview of ADOIT platform and use cases
- ✓ Navigating the tool's interface and components

Module 2: Modeling Basics

- ✓ Creating basic architectural objects
- ✓ Overview of layers: business, data, application, technology
- ✓ Using templates and repositories

Module 3: Building Architecture Views

- ✓ Designing layered views and diagrams
- ✓ Connecting elements across layers
- ✓ Best practices for clear and structured modelling

Module 4: Relationships and Dependencies

- ✓ Mapping dependencies (e.g., between applications, processes, systems)
- ✓ Understanding impact analysis and traceability
- ✓ Using relationship matrices and filters

Module 5: Analysis & Reporting

- ✓ Performing gap and impact analyses
- ✓ Generating dashboards and visual insights
- ✓ Creating reports for stakeholders

Module 6: EA Standards & Frameworks

- ✓ Applying TOGAF, ArchiMate, and other EA frameworks
- ✓ Best practices for standardized modeling

✓ Governance and compliance support

Module 7: Collaboration & Team Enablement

✓ Sharing models with stakeholders

✓ Collaboration workflows and version control

✓ Reviewing and approving architecture artifacts

Module 8: Hands-On Exercises & Case Studies

✓ Practical scenarios based on real business challenges

✓ Guided exercises to reinforce learning

✓ Final review and feedback
