About Course

The PingOne Training offered by Multisoft Systems is designed to teach participants about PingOne, a cloud-based identity and access management solution. It covers the basics of identity management, features and functionalities of the PingOne platform, practical sessions for real-world application, and security best practices.

Module 1: Introduction to PingOne

- ✓ Overview of PingOne and its role in identity management
- ✓ Understanding the PingOne environment
- ✓ Key features and capabilities

Module 2: Setting up PingOne

- ✓ Creating a PingOne account
- ✓ Navigating the PingOne dashboard
- ✓ Configuring basic settings and preferences

Module 3: User Management

- ✓ Managing user accounts
- ✓ Understanding user roles and permissions
- ✓ Implementing bulk user operations

Module 4: Authentication and Single Sign-On (SSO)

- ✓ Fundamentals of SSO with PingOne
- ✓ Configuring SSO for web applications
- ✓ Integrating SSO with enterprise systems

Module 5: Security and Compliance

- ✓ Security features in PingOne
- ✓ Implementing multi-factor authentication
- ✓ Compliance standards and best practices

Module 6: Application Integration

- ✓ Integrating applications with PingOne
- ✓ Managing application access and permissions

- ✓ Utilizing APIs for custom integrations

Module 7: Advanced Configuration

- ✓ Advanced user and group management techniques
- ✓ Customizing authentication policies
- ✓ Troubleshooting and advanced settings

Module 8: Reporting and Analytics

- ✓ Utilizing PingOne's reporting tools
- ✓ Analyzing user and application activity
- ✓ Making data-driven decisions

Module 9: Best Practices and Case Studies

- ✓ Real-world examples of PingOne implementations
- ✓ Best practices for deployment and management
- ✓ Lessons learned and key takeaways

Module 10: Hands-On Lab and Project Work

- ✓ Practical exercises and simulations
- ✓ Implementing a mini-project using PingOne
- ✓ Q&A and interactive problem-solving session
