A leading certification training provider, Multisoft collaborates with top technologies to bring world-class one-on-one and certification trainings. With the goal to empower professionals and business across the globe, we offer more than 1500 training courses, which are delivered by Multisoft's global subject matter experts. We offer tailored corporate training; project Based Training, comprehensive learning solution with lifetime e-learning access, after training support and globally recognized training certificates.

## About Course

Safety-Critical Real-Time Embedded (RTE) systems play a pivotal role in numerous industries, including automotive, aerospace, medical devices, and industrial automation. Ensuring the reliability and predictability of these systems is paramount, as they often involve human lives or critical infrastructure. Multisoft Systems offers comprehensive SAFE RTE training to equip individuals with the expertise required to design, develop, and maintain these systems.

## **Module 1: Exploring the RTE role and responsibilities**

- ✓ Learn about the roles and responsibilities of the RTE in a Lean enterprise

## **Module 2: Applying SAFe Principles**

- ✓ Learn to apply SAFe principles to drive relentless value across product deliveries
