About Multisoft

Train yourself with the best and develop valuable in-demand skills with Multisoft Systems. A leading certification training provider, Multisoft collaborates with top technologies to bring world-class one-on-one and certification trainings. With the goal to empower professionals and business across the globe, we offer more than 1500 training courses, which are delivered by Multisoft's global subject matter experts. We offer tailored corporate training; project Based Training, comprehensive learning solution with lifetime e-learning access, after training support and globally recognized training certificates.

About Course

SAP PaPM on Cloud Training by Multisoft Systems is designed to help professionals master SAP Profitability and Performance Management in a cloud-based environment. The course provides comprehensive knowledge of profitability analysis, financial modeling, allocation strategies, simulation processes, KPI management, and performance optimization using SAP cloud technologies.

Module 1: Introduction to SAP PaPM on Cloud

- ✓ Overview of SAP PaPM
- ✓ Business use cases and benefits
- ✓ PaPM vs traditional financial tools
- ✓ SAP BTP integration
- ✓ Cloud architecture overview

Module 2: SAP PaPM Architecture & Components

- ✓ Core components of PaPM
- ✓ Data sources and integration layers
- ✓ Processing engine and calculation framework
- ✓ Model structure and execution flow
- ✓ Cloud deployment architecture

Module 3: Data Integration & Data Modeling

- ✓ Data acquisition from SAP and non-SAP systems
- ✓ Data preparation and transformation
- ✓ Creating data models in PaPM
- ✓ Managing master and transactional data
- ✓ Data validation techniques

Module 4: Functions & Calculations

- ✓ Overview of PaPM functions
- ✓ Allocation functions
- ✓ Join, Union, and Projection functions
- ✓ Formula modeling and logic building
- ✓ Rule-based calculations

Module 5: Profitability & Cost Allocation

- ✓ Cost allocation strategies
- ✓ Profitability analysis scenarios
- ✓ Activity-based costing
- ✓ Multi-level allocation models
- ✓ Financial performance tracking

Module 6: Simulation & Forecasting

- ✓ Scenario simulation techniques
- ✓ Forecasting models
- ✓ What-if analysis
- ✓ Risk and impact analysis
- ✓ Business planning integration

Module 7: Reporting & Analytics

- ✓ Integration with SAP Analytics Cloud (SAC)
- ✓ Creating dashboards and reports
- ✓ Real-time analytics
- ✓ Visualization techniques
- ✓ KPI monitoring

Module 8: Performance Optimization

- ✓ Optimization of large data processing
- ✓ Parallel execution and tuning
- ✓ Managing performance bottlenecks
- ✓ Cloud scalability features

Module 9: Security & Governance

- ✓ User roles and authorizations

- ✓ Data security in cloud
- ✓ Compliance and audit readiness
- ✓ Governance frameworks

Module 10: Real-Time Project & Use Cases

- ✓ End-to-end PaPM implementation
- ✓ Financial modeling case study
- ✓ Banking/Insurance use case
- ✓ Cost optimization scenario
- ✓ Business performance simulation
